

JOBS ANNOUNCEMENTS PPA 2012

Job 1: Pulmonary Pathologist / Asbestos

TITLE: **Pulmonary Pathologist**
Private Group Pathology Practice

EASTERN VIRGINIA (USA). Peninsula Pathology Associates (PPA), a private pathology group, is seeking a **pathologist with subspecialty expertise in pulmonary pathology** to join our practice in 2012.

Fellowship training in pulmonary pathology or prior publication experience in pulmonary pathology is required. Our practice has a substantial case-load of patients with asbestos-related disease. We perform consultation and legal /litigation services on these cases. The successful candidate must possess a strong interest and expertise in both pulmonary pathology and asbestos-related disease and appropriate skills required in litigation. The candidate must also have strong skills in general surgical pathology. The candidate must have, or be eligible for, medical licensure in Virginia.

PPA provides pathology services to multiple hospitals in the Riverside Health System in Eastern Virginia; see: <http://www.riversideonline.com/>. Our practice provides both anatomic and clinical pathology with subspecialties in several disciplines.

PPA offers a generous compensation plan, including a comprehensive benefits package and paid malpractice insurance. For further information on this position, please contact David Smith, M.D. by email at david.smith@rivhs.com, and include a copy of your C.V. All inquiries will be handled in strict confidence.

Job2: General Pathologist (GYN Path experience preferred)

TITLE: AP/CP Pathologist
Private Group Pathology Practice

EASTERN VIRGINIA (USA). Peninsula Pathology Associates (PPA), a private pathology group, is seeking an **AP/CP certified or eligible pathologist** to join our practice in 2012. Pathologist with interest or training in GYN pathology will be given preference.

The candidate must be skillful with a broad spectrum of pathology, including complex surgical pathology cases, frozen sections, GYN and non-GYN cytopathology, and clinical laboratory responsibilities as well. The ideal candidate must exhibit excellent character, professionalism, and communication skills. The candidate must have, or be eligible for, medical licensure in the state of Virginia.
