

Providence Medford Medical Center in Medford, Oregon is seeking applications for the positions of Pathology and Laboratory Medical Director, and Associate Pathologist. Applicants should be Board certified in Anatomic and Clinical Pathology, with commensurate experience. Additional subspecialty experience in surgical pathology or Hematopathology would be an asset. The positions entail oversight of a clinical laboratory which provides a full scope of services in blood bank, microbiology, hematology and clinical chemistry, as well as a full complement of anatomic pathology services.

Providence Health and Services is committed to the continuity of locally-driven laboratory and pathology services in the Rogue Valley Region, with closely coordinated links and support from Providence Laboratory Services in Oregon.

Medford, Oregon is in heart of the Rogue River Valley and is Southern Oregon's largest city. There is spectacular scenery and numerous opportunities for outdoor activities and sports include skiing and white water rafting. Nearby attractions include Crater Lake National Park, Ashland, Oregon, home of the Oregon Shakespeare Festival, and Jacksonville, Oregon, home of the Britt Festivals.
